THE CHANGING EARTH

A female-led survival thriller about family, the future, and the end of the world we built.

Nine years after the Great Quake, wife and mother Erika Moore — the Lone Survivor of Sacramento — works inside a Las Vegas refugee camp to keep the state from altering her youngest son. When her mentor tells her the procedure is still coming, she chooses blood over the uniform.

TONE The intimate survival stakes of *The Last of Us* with the authoritarian dread of *The Handmaid's Tale* and the family loyalty of *Yellowstone*.

THE PILOT — THE BETRAYAL

Bennet tells Erika the state will still alter Daniel. She chooses blood over the uniform. Before they can run, Bennet arrests the family himself. The hour ends with the Moores in custody and bounty hunter TJ Swenson hired to control the narrative.

THE REGIME

After the quake, America splits into landowners and refugees. Refugees are held in RAP camps under a unified federal force: mandatory labor, restricted movement, and a medical program that alters children at thirteen. Disaster is not over. Floods, famine, and a darkening sky keep raising the stakes.

THE HEROINE

Erika Moore is a mother, a wife, and a fighter — the Lone Survivor — who becomes a symbol because she will not abandon her people.

THE CAGE

A two-class America. Camps instead of cities. A state that would rather own a legend than kill her. The next disaster is always coming.

THE THRILLER

A mentor who may have to destroy the Moores to save them. A bounty hunter hired to take the family alive. A hunt that does not end in the pilot.

THE PEOPLE WHO CARRY THE WAR

ERIKA MOORE	The Lone Survivor of Sacramento. Mother. Martial artist. Fierce love with a body count — the soul of the series.
VINCE MOORE	Husband and builder. The quiet strength that keeps a family standing when the country will not.
THE CHILDREN	Dexter, already taken by the system. Daniel, the clock they are racing. Star, the daughter Erika pulled from the ruins.
SGT. BENNET	Mentor. Soldier. The man who warns her to run — then puts the hood on her himself.
TJ SWENSON	Bounty hunter. Methodical. Hired not to kill the legend, but to deliver her.

SEASON ONE The Betrayal. Pilot available. An 11-novel saga and a five-season audio drama already written — multiple seasons conceptualized.

WHY IT CONVERTS TO TELEVISION

This is not a disaster movie stretched to eight episodes. It is an 11-novel closed saga with a female heroine, a family that drives every season, and a long-running human antagonist. The Earth keeps changing. The war for what is left of America keeps escalating. The story is already built for years of television.
